

CONDUIT AND BOX SUPPORT PLATE

patent #08,495,043

NECA
2000
HOWSTOPPER

- Support Box and Conduits with one rod or Clamp!
- Each plate will support multiple conduit within 4 inches of the box in all directions.
- Meets Federal and National Electrical Code Requirements.

*Contractors are saving at least 20 minutes per installation
Using our New CSP-R-Conduit and Box Support Plate*

No Competition When Using our CSP-R Support Bracket

With sawing, cutting and installing up to three or more threaded rods, competing solutions can take up to 50 minutes to complete.

Both of these installations required a back up saw and assembly of brace using unistrut.

This installation required four additional threaded rods.

All three installations took more time to install than our CSP-R.

SPECIFICATIONS

CAT.#	DESCRIPTION	QUANTITY PER BOX	WEIGHT PER EACH
CSP-R	20 Gauge Steel round Conduit and Box Support	20	1.1 lbs

Easily Installed No cutting or sawing.

Flexible Facilitates conduit installation from virtually any angle. Ideal for all types installations-hospitals, computer rooms, casinos, hotels, airports, etc.

Quick Install in a few minutes.

Cuts Costs Labor costs are reduced by 30% or more of other competing solutions. Typical per unit savings equate to at least \$25.00 or more per installation.

Universal Adaptable to the major name brands of boxes and other related devices.

Strong The design of the CSP-R mounting bracket makes it self-reinforcing as more conduits are attached.
