

Wire Pulling Pal

- Only one electrician needed to pull wire
- Pays for itself in a few days
- Every service truck should have at least one.

Patent pending

- Unique closely spaced roller design allows building wire and low voltage cable to be pulled faster and easier without being nicked, scraped or cut. Eliminates costly on site problems, call backs and upset customers.
- Ideal for bundles cable and all types of wire including data, fiber optic, etc.
- Pre-drilled holes allow fast mounting on 4" and 4 11/16" square or handy boxes, 1 and 2 gang mud Rings ,larger junction boxes , panels, studs, etc.
- Strong well machined steel construction. Built to last.
