Master Pulling Reels
HOME RUNS

SAFER - Set up only one reel. Approximately 50% of all home runs pulled on jobs throughout the year are common. Eliminates constantly handling and loading many heavy reels while installing the wire and again handling, hauling, and storing, partial reels of wire back at the shop at great expense.

Avoid expensive ringing out, tagging each conductor with costly markers that often are incorrect or fall off.

- **Cross tape only with easy to remove tabs for faster easier pulling.**
- Also, separate wires allow pulling individual wires in or out without removing entire harness.
- Conductors are easily added or removed later. Nylon lacing also available.
- Avoid expensive ringing out, tagging each conductor with costly markers that often are incorrect or fall off.
- Every wire tested for quality.
- Extra footage to guarantee length.
- Quantity discounts and labor only orders (customer supplies all material other than SP proprietary items) available for greater savings.
- If manufacturers' brands are not specified equals will be supplied.
- Assemblies are UL Listed provided all components are UL.
- Labor only orders negotiated
- Certificates of insurance at no charge for pay outs when storing.
- Conductors carefully inspected for excellent quality plus reels properly marked & shipped flat or standing upright on skids for easier unloading & handling on job sites.
- 2500 foot reels from manufacturers often run short. Home runs will only be as long as shortest reel of the conductors involved plus some footage loss when striping or printing each conductor. Allowed for SP to order longer reels.
